-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This Office Action is in regards to the most recent papers filed on 11/19/2008.

Oath/Declaration

2. In accordance with 37 CFR 1.175(b)(1), a new reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

The declaration as filed 3/2/2004 is deficient for the instant application, as the claims and the title of the instant application have been amended on 11/19/2008, which amendment included cancelling the added claims that caused the filing of the reissue application. A new oath or declaration must be filed that reflect the errors that caused the reissue application to be filed with respect to the instant claims.

Accordingly, Claims 1-3 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Allowable Subject Matter

3. Claims 1-3 would be allowable if a new declaration were to be submitted, as detailed above.
4. The following is a statement of how the subject matter of claims 1-3 is allowable:
5. None of the prior art of record discloses or suggests the transmitter-receiver as claimed in claim 1.

6. For example, 5,608.786 to Gordon, a unified messaging system is disclosed that combines a plurality of communication channels (including e-mail providers). However, Gordon does not disclose at least the steps of determining from a plurality of mail spools mail spools where a mail designated to be read is stored, or converting a reading command for reading out the mail from the single mail spool into a reading command for reading out the mail from each of the mail spools determined by said first determining means. In the case of Gordon, messages are either converted to a single format (Gordon: Column 5, lines 32-35) or accessed directly from their respective receiver (spool) (Gordon: Column 6, lines 4-20).

7. No prior art of record appears to disclose determining which mail spool a designated mail to be read is stored or converting a read command into a read command for reading out the mail from each of the mail spools in a system where a plurality of mail spools are integrated into a single mail spool by a spool integration unit.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Christensen whose telephone number is (571)270-1144. The examiner can normally be reached on Monday through Thursday 6:30AM - 4:00PM.
